

Logan Heart Centre - Greenslopes Heart Centre - Redland Heart Centre - Ipswich Heart Centre

Patient's name:.....

Address:.....

Date of birth:..... Phone:.....

Investigations requested:

GP & Specialist Referral

- 1. **Cardiac consultation**
- 2. **Pacemaker testing**
- 3. **24-hour blood pressure monitor**
- 4. **Exercise stress testing (11729 or 11730)**
Rebatable once every 2 years
- 5. **12-lead ECG (reported) (11704)**
No claim limit
- 6. **7-day event monitoring (11723)**
Rebatable once every 3 months
- 7. **Holter monitoring (11716)**
**Please turn over to complete the relevant indication guide by ticking A, B, C, D or E*
Rebatable once every 4 weeks
- 8. **Exercise stress echocardiogram (55141)**
Rebatable once every 2 years
- 9. **Echo - Initial comprehensive (55126)**
Rebatable once every 2 years
- 10. **Serial echo pericardial disease / cardiotoxicity (55133)**
No claim limit
- 11. **Serial echo for rare cases (55134)**
No claim limit

Specialist Referral Only

- 12. **Serial echo (55127)**
Valvular disease
No claim limit
- 13. **Serial echo (55129)**
Structural heart disease
No claim limit
- 14. **Repeat exercise stress echo (55143)**
Rebatable once every 12 months

The Australian Government has made changes to Medicare-funded cardiac imaging services, therefore rebates are subject to clinical details that meet Medicare eligibility requirements.

Appointment day/date

Appointment time:

TEST INFORMATION

12-LEAD EGG (REPORTED)

Duration: 5-10 minutes

Preparation: No preparation required.

24-HOUR HOLTER MONITOR

Duration: Approximately 20 minutes to fit

The monitor is then returned the next day.

Preparation: Clean, dry skin is required.

You cannot shower whilst the monitor is fitted and therefore it is recommended you shower prior to your appointment.

24-HOUR BLOOD PRESSURE MONITOR

Duration: Approximately 20 minutes to fit

The monitor is then returned the next day.

Preparation: You cannot shower whilst the monitor is fitted and therefore it is recommended you shower prior to your appointment.

7-DAY EVENT MONITOR

Duration: Approximately 20 minutes to fit

The monitor is then returned after 7 days.

Preparation: Clean, dry skin is required.

ECHOCARDIOGRAM

Duration: Approximately 40 minutes

Preparation: No preparation required.

EXERCISE STRESS TEST

Duration: Approximately 40 minutes to fit

Preparation: No caffeine or smoking 3 hours prior to test. Wear two-piece clothing and footwear suitable for walking on a treadmill. Bring a full list of medications you are taking.

EXERCISE STRESS ECHOCARDIOGRAM

Duration: Approximately 60 minutes

Preparation: No caffeine or smoking 3 hours prior to test. Wear two-piece clothing and footwear suitable for walking on a treadmill. Bring a full list of medications you are taking.

(I) INDICATION GUIDE FOR STRESS ECHOCARDIOGRAM

- A Chest/neck/shoulder/jaw/arm pain or discomfort consistent with suspected angina
- B Known CAD with worsening symptoms/suspected ischaemia
- C Unexplained breathlessness
- D ECG changes suggestive of ischaemia
- E Assess the functional significance of coronary disease detected on angiography (CT or invasive)
- F Preoperative assessment of a patient considered high risk (poor functional capacity, known CAD, heart failure, renal dysfunction, diabetes and on insulin)
- G Assessment of valvular disease to aid in a decision regarding surgical intervention.
- H Suspected silent myocardial ischaemia

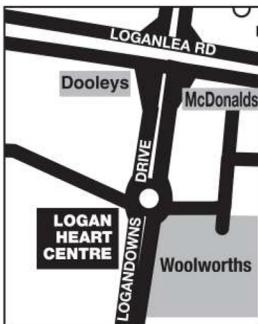

(II) INDICATION GUIDE FOR ECHOCARDIOGRAM (INITIAL)

- A Signs or symptoms of cardiac failure
- B Suspected or known ventricular dysfunction, hypertrophy or pulmonary hypertension
- C Diseases of the valves, aorta or pericardium Thrombotic or embolic disease
- D Heart tumour or suspected congenital heart disease
- E Other rare indications

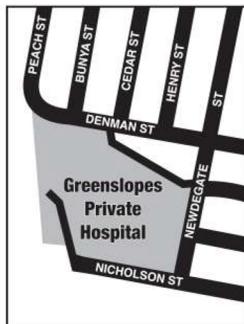

* (III) INDICATION GUIDE FOR HOLTER MONITORING

- A Syncope/pre-syncope episodes
- B Palpitations occurring more than once a week
- C Suspicion of asymptomatic arrhythmia
- D Surveillance post specific surgical procedures
- E Investigation post CVA or TIA

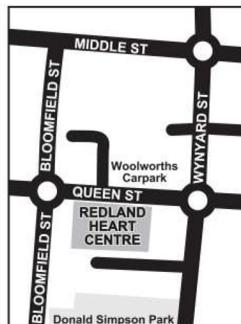

For a comprehensive list of all eligible indications for each testing procedure, please refer to www.mbsonline.gov.au
